

WORLD 25 SEPTEMBER **PHARMACISTS DAY**

World Pharmacists Day was the brainchild of the International Pharmaceutical Federation (FIP), with the council of this organization voting to establish the event in the late 2000s during a conference they staged in Istanbul, Turkey. The aim of the day is to bring attention to pharmacies and the positive benefits they offer when it comes to health and FIP encourages all its members to get involved to make the event a success.

The theme for 2019 'Safe and effective medicines for all' aims to promote pharmacists' crucial role in safeguarding patient safety through improving medicines use and reducing medication errors. **Clinical Trial Pharmacists are the unsung heroes of Clinical Trials.**
#WorldPharmacistsDay

TCTC Group is a privately owned full-service clinical research provider specialized in bringing products with unique clinical, medical and regulatory complexities to market. In addition to offering full-service clinical trial solutions, the group includes independent divisions specialized in quality assurance, medical writing and regulatory affairs, project and site management, staffing and training services.

TCTC Group are experts in advanced therapies and successfully executed clinical trials for the first Gene therapy to be approved in the Western world. The group also has a CNS-dedicated clinical development team conducting trials in the most complex neurological and psychiatric conditions.
