

## **TCTC Group proudly announces the establishment of The CLINICAL DATA MANAGEMENT Company**

We are delighted to announce that in February 2018, The CLINICAL TRIAL Company™ establishes the newest division of the organisation, The CLINICAL DATA MANAGEMENT Company™.

At The CLINICAL DATA MANAGEMENT Company (TCDMC) we deliver high-quality data management solutions tailored to your needs. Our aim is to support your clinical research in order to facilitate a fast and successful pathway to the market. Tom Richardson, Head of TCDMC commented, *“Data Management within TCTC Group has been blossoming over the last 2 years and now it is time to really make our mark by proudly announcing the newest division of our growing organisation, The CLINICAL DATA MANAGEMENT Company. We want to give you the eCRF Platform of your dreams. Whether you are a start-up company finding your feet or you are a flourishing biotech looking to take your product to the next level, we can ensure your every Data Management need is catered for. With over 30 years’ experience across two continents, we can give you at least 17 hours of coverage to ensure the pulse of your clinical trial database never stops beating. Contact us now for quotes on consultancy, coding and conquering those queries. We look forward to giving you reliable, secure, compliant Data Management services tailor-made to your organisation.”*

TCDMC offers a unique choice of clear, concise databases in order to get the best data for your study. We offer a variety of different fully validated, user-friendly eCRF Platforms to suit both your needs and your budget.

**Reliable, secure, compliant Data Management services tailor-made for you**

The CLINICAL TRIAL Company™ continues to offer Clinical, Medical, Quality and Regulatory Support as well as offering CNS specific knowledge.

TCTC provides clinical contract research services to the pharmaceutical, biotech and medical device industries and has expertise in advanced products such as cell and gene therapies, as well as orphan drug indications. TCTC ran the clinical trials for the first gene therapy medicine to be approved in the western world.

Customer satisfaction is the key to our success as we always aim to provide our clients with efficient resource management and an alternative to conventional off-the-shelf approval strategies which ignore the unique nature of each product and market.

Our expert TCTC team will be available to discuss your requirements and will be pleased to assist you with getting your product to market in the most efficient manner in terms of cost and time. To book a meeting with the team please feel free to contact:

## Notes for Editors

The CLINICAL TRIAL Company™ (TCTC) is a privately owned full-service clinical research provider formed in 2002. Our philosophy is one of teamwork, positivity, communication, responsibility and adding value.

The CLINICAL TRIAL Company™ has its Global Headquarters near Manchester in the UK, along with offices located throughout Europe, North America, Asia and Australia. In addition to The CLINICAL TRIAL Company™ which conducts full-service clinical trials, the group has 6 other divisions which offer specialist services:

The CQA Company™ offers clients QMS and auditing services. This division has worked with 6 of the top 10 Pharma companies and numerous SMEs.

The Regulatory Affairs Company™ which supports organizations with Regulatory and Ethics submissions and Medical Writing.

The CNS Company™, which provides specialist CNS Therapeutic Area clinical trial design and execution.

The CRA Company™ which provides trial monitoring and project management personnel.

The Clinical Training Company™ which provides training for any staff requiring Clinical and GCP, QMS and auditing knowledge.

The CLINICAL DATA MANAGEMENT Company™ which provides a unique choice of clear, concise databases in order to get the best data for your study.
